2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these consolidated financial statements are summarized below and in the succeeding pages. These policies have been consistently applied to all years presented, unless otherwise stated.

2.1 Basis of Preparation of Interim Consolidated Financial Statements

These ICFS have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting.* They do not include all of the information required in annual financial statements in accordance with Philippine Financial Reporting Standards (PFRS), and should be read in conjunction with the Group's audited consolidated financial statements (ACFS) as at and for the year ended April 30, 2016.

The ICFS are presented in Philippine pesos, the Company's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the ICFS of the Group are measured using the Company's functional currency. Functional currency is the currency of the primary economic environment in which the Company operates.

The preparation of the Group's ICFS in accordance with PFRS requires management to make judgments and estimates that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates. There were no changes in estimates of amounts reported in prior financial years that have a material effect in the current interim period.

The Group presents all items of income and expense in a single consolidated statement of comprehensive income.

2.2 *Adoption of New and Amended PFRS*

(a) Effective in Fiscal Year 2017 that are Relevant to the Group

The Group adopted for the first time the following amendmentand annual improvements to PFRS, which are mandatorily effective for annual periods beginning on or after January 1, 2016, for itsinterim reporting period beginning May 1, 2016:

PAS 1 (Amendment)	:	Presentation of Financial Statements – Disclosure Initiative
PAS 16and PAS 38 (Amendments)	:	Property, Plant and Equitment and Intangible Assets – Clarification of Acceptable Methods of Depreciation and Amortization
PAS 16and PAS 41 (Amendments)	:	Property, Plant and Equitment and Agriculture – Bearer Plants
PAS 27 (Amendment)	:	Separate Financial Statements – Equity Method in Separate Financial Statements
PFRS 10, PFRS 12 and PAS 28 (Amendments)	:	Investments in Associates and Joint Ventures – Investment Entities: Applying the Consolidation Exception
Annual Improvements	:	Annual Improvements to PFRS (2012-2014 Cycle)

Discussed below are the relevant information about these amendment and improvements.

(i) PAS 1 (Amendment), *Presentation of Financial Statements–Disclosure Initiative*(effective from January 1, 2016). The amendment encourages entities to apply professional judgment in presenting and disclosing information in the financial statements. Accordingly, it clarifies that materiality applies to the whole financial statements and an entity shall not reduce the understandability of the financial statements by obscuring material information with immaterial information or by aggregating material items that have different natures or functions. Moreover, the amendment clarifies that an entity's share of other comprehensive income of associates and joint ventures accounted for using equity method should be presented based on whether or not such other comprehensive income item will subsequently be reclassified to profit or loss. It further clarifies that in determining the order of presenting the notes and disclosures, an entity shall consider the understandability and comparability of the financial statements.

(ii) PAS 16 (Amendment), *Property, Plant and Equipment*, and PAS 38 (Amendment), *Intangible Assets– Clarification of Acceptable Methods of Depreciation and Amortization* (effective from January 1, 2016). The amendment in PAS 16 clarifies that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment. In addition, amendment to PAS 38 introduces a rebuttable presumption that an amortization method that is based on the revenue generated by an activity that includes the use of an intangible asset is not appropriate, which can only be overcome in limited circumstances where the intangible asset is expressed as a measure of revenue, or when it can be demonstrated that revenue and the consumption of the economic benefits of an intangible asset are highly correlated. The amendment also provides guidance that the expected future reductions in the selling price of an item that was produced using the asset could indicate an expectation of technological or commercial obsolescence of an asset, which may reflect a reduction of the future economic benefits embodied in the asset.

(iii) PAS 16 (Amendment), *Property, Plant and Equipment*, andPAS 41 (Amendment), *Agriculture–Bearer Plants*(effective from January 1, 2016). The amendment defines a bearer plant as a living plant that is used in the production or supply of agricultural produce, is expected to bear produce for more than one period and has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales. On this basis, bearer plant is now included within the scope of PAS 16 rather than PAS 41, allowing such assets to be accounted for as property, plant and equipment and to be measured after initial recognition at cost or revaluation basis in accordance with PAS 16. The amendment further clarifies that produce growing on bearer plants remains within the scope of PAS 41.

(iv) PAS 27 (Amendment), *Separate Financial Statements –Equity Method in Separate Financial Statements* (effective from January 1, 2016). This amendment introduces a third option which permits an entity to account for its investments in subsidiaries, joint ventures and associates under the equity method in its separate financial statements in addition to the current options of accounting those investments at cost or in accordance with PAS 39 or PFRS 9. As at the end of the reporting period, the Parent Company has no plan to change the accounting policy for its investments in its subsidiaries and associates.

(v) PFRS 10 (Amendment), *Consolidated Financial Statements*, PFRS 12, *Disclosure of Interests in Other Entities*, and PAS 28 (Amendment), *Investments in Associates and Joint Ventures–Investment Entities – Applying the Consolidation Exception* (effective from January 1, 2016).This amendment addresses the concerns that have arisen in the context of applying the consolidation exception for investment entities. It clarifies which subsidiaries of an investment entity are consolidated in accordance with paragraph 32 of PFRS 10 and clarifies whether the exemption to present consolidated financial statements, set out in paragraph 4 of PFRS 10, is available to a parent entity that is a subsidiary of an investment entity. This amendment also permits a non-investment entity investor, when applying the equity method of accounting for an associate or joint venture that is an investment entity, to retain the fair value measurement applied by that investment entity associate or joint venture to its interests in subsidiaries.

(vi) Annual Improvements to PFRS (2012-2014 Cycle) (effective from January 1, 2016). Among the improvements, the following amendments are relevant to the Group but but had no material impact on the Group's interim consolidated financial statements:

- PFRS 7 (Amendment), *Financial Instruments – Disclosures.* The amendment provides additional guidance to help entities identify the circumstances under which a contract to "service" financial assets is considered to be a continuing involvement in those assets for the purposes of applying the disclosure requirements of PFRS 7. Such circumstances commonly arise when, for example, the servicing is dependent on the amount or timing of cash flows collected from the transferred asset or when a fixed fee is not paid in full due to non-performance of that asset.

- PFRS 7 (Amendment), *Financial Instruments – Applicabilityof Amendments to PFRS 7 to Condensed Interim Financial Statements.* This amendment clarifies that the additional disclosure required by the recent amendments to PFRS 7 related to offsetting financial assets and financial liabilities is not specifically required for all interim periods. However, the additional disclosure is required to be given in condensed interim financial statements that are prepared in accordance with PAS 34, *Interim Financial Reporting*, when its inclusion would be necessary in order to meet the general principles of PAS 34.

- PAS 19 (Amendment), *Employee Benefits.* The amendment clarifies that the currency and term of the high quality corporate bonds which were used to determine the discount rate for post-employment benefit obligations shall be made consistent with the currency and estimated term of the post-employment benefit obligations.

- PAS 34 (Amendment), *Interim Financial Reporting – Disclosure of Information "Elsewhere in the Interim Financial Report."* The amendment clarifies the meaning of disclosure of information "elsewhere in the interim financial report" and requires the inclusion of a cross-reference from the interim financial statements to the location of this referenced information. The amendment also specifies that this information must be available to users of the interim financial statements on the same terms as the interim financial statements and at the same time, otherwise the interim financial statements will be incomplete.

(b) Effective in Fiscal Year 2017 that are not Relevant to the Group

The following amendment and annual improvementswhich are mandatorily effective for annual periods beginning January 1, 2016 are not relevant to the Group:

PFRS 11 (Amendment)	:	Joint Arrangements – Accounting for Acquisitions of Interests in Joint Operations
Annual Improvement to PFRS (2012-2014 Cylce)	:	PFRS 5 (Amendment) – Non-current Assets Held for Sale and Discontinued Operations

(c) Effective Subsequent to Fiscal Year 2017 but not Adopted Early

There are new PFRS, amendments and annual improvements to existing standards effective for annual periods subsequent to fiscal year 2017 of the Group which are adopted by the FRSC. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and, unless otherwise stated, none of these are expected to have an impact on the Group's consolidated financial statements:

(i) PFRS 9 (2014), *Financial Instruments* (effective from January 1, 2018). This new standard on financial instruments will eventually replace PAS 39and PFRS 9 (2009, 2010 and 2013 versions). This standard contains, among others, the following:

- three principal classification categories for financial assets based on the business model on how an entity is managing its financial instruments;

- an expected loss model in determining impairment of all financial assets that are not measured at fair value through profit or loss (FVTPL), which generally depends on whether there has been a significant increase in credit risk since initial recognition of a financial asset; and,

- a new model on hedge accounting that provides significant improvements principally by aligning hedge accounting more closely with the risk management activities undertaken by entities when hedging their financial and non-financial risk exposures.

In accordance with the financial asset classification principle of PFRS 9 (2014), a financial asset is classified and measured at amortized cost if the asset is held within a business model whose objective is to hold financial assets in order to collect the contractual cash flows that represent solely payments of principal and interest (SPPI) on the principal outstanding. Moreover, a financial asset is classified and subsequently measured at fair value through other comprehensive income if it meets the SPPI criterion and is held in a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets. All other financial assets are measured at FVTPL.

In addition, PFRS 9 (2014) allows entities to make an irrevocable election to present subsequent changes in the fair value of an equity instrument that is not held for trading in other comprehensive income.

The accounting for embedded derivatives in host contracts that are financial assets is simplified by removing the requirement to consider whether or not they are closely related, and, in most arrangements, does not require separation from the host contract.

For liabilities, the standard retains most of the PAS 39 requirements which include amortized cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The amendment also requires changes in the fair value of an entity's own debt instruments caused by changes in its own credit quality to be recognized in other comprehensive income rather than in profit or loss.

Management is currently assessing the impact of PFRS 9 (2014) on the consolidated financial statements of the Group and it will conduct a comprehensive study of the potential impact of this standard prior to its mandatory adoption date to assess the impact of all changes.

(ii) PFRS 10 (Amendment), *Consolidated Financial Statements*, and PAS 28 (Amendment), *Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associates or Joint Venture* (effective date deferred indefinitely). The amendment to PFRS 10 requires full recognition in the investor's financial statements of gains or losses arising on the sale or contribution of assets that constitute a business as defined in PFRS 3 between an investor and its associate or joint venture. Accordingly, the partial recognition of gains or losses (i.e., to the extent of the unrelated investor's interests in an associate or joint venture) only applies to those sale of contribution of assets that do not constitute a business. Corresponding amendment has been made to PAS 28 to reflect these changes. In addition, PAS 28 has been amended to clarify that when determining whether assets that are sold or contributed constitute a business, an entity shall consider whether the sale or contribution of those assets is part of multiple arrangements that should be accounted for as a single transaction. In December 2015, the IASB deferred the manadatory effective date for the amendment (i.e., January 1, 2016) indefinitely.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to a variety of financial risks in relation to financial instruments. The main types of risks are market risk, credit risk and liquidity risk.

The Group's risk management is carried out in close cooperation with the BOD, and focuses on actively securing the Group's short to medium term cash flows by minimizing the exposure to financial markets. Long-term financial investments are managed to generate lasting returns.

The Group does not actively engage in the trading of financial assets for speculative purposes nor does it write options. The most relevant financial risks to which the Group is exposed to are described below and in the succeeding pages.

3.1 Market Risk

The Group is exposed to market risk through its use of financial instruments and specifically to foreign currency risk, interest rate risk and certain other price risk which result from both its operating, investing and financing activities.

(a) Interest Rate Risk

The Group's policy is to minimize interest rate cash flow risk exposures on cash and cash equivalents. As at January 31, 2017 and April 30, 2016, the Group is exposed to changes in market interest rates through short-term placements included as part of Cash and Cash Equivalents account and stocking loans of H.R. Owen presented as Loans Payable and Borrowings, which are subject to variable interest rates, in the consolidated statements of financial position.

The Group keeps placements with fluctuating interest at a minimum while H.R. Owen's stocking loans are secured at any time by fixed and floating charges on stocks of new and demonstrator cars and commercial vehicles held. As such, management believes that its exposure to interest rate risk is immaterial.

(b) Foreign Currency Risk

Except for H.R. Owen whose functional currency is GBP, most of the Group's transactions are carried out in Philippine pesos, its functional currency. Exposures to currency exchange rates arise from the Group's overseas purchases, which is primarily denominated in United States Dollars (USD). The Group also holds USD, GBP, Malaysian Ringgit (MYR) and European Union Euro (EUR) denominated cash and cash equivalents and receivables. Further, the Group has AFS financial assets denominated in MYR and GBP. There were no foreign currency denominated financial liabilities as at January 31, 2017 and April 30, 2016.

To mitigate the Group's exposure to foreign currency risk, non-Philippine peso cash flows are monitored.

Foreign currency denominated financial assets, translated into Philippine pesos at the closing rate are as follows:

	January 31, 2017	April 30, 2016
Php - USD	**P 4,041,852**	P 15,693,359
Php - MYR	**4,109,910**	24,205,757
Php - GBP	**959,003,087**	1,107,442,737
Php - EUR	**270,323**	46,907,889

The following table illustrates the sensitivity of the Group's profit before tax with respect to changes in Philippine peso against USD, MYR, GBP and EUR exchange rates. These percentages have been determined based on the average market volatility in exchange rates, using standard deviation, in the previous 12 months, estimated at 95.00% level of confidence. The sensitivity analysis is based on the Group's foreign currency financial instruments held at the end of each reporting period with effect estimated from the beginning of the year.

	January 31, 2017			April 30, 2016		
	Reasonably possible change in rate	**Effect in profit before tax**	**Effect in equity after tax**	Reasonably possible change in rate	Effect in profit before tax	Effect in equity after tax
PhP - USD	**8.95%**	**P 930,124**	**P 651,087**	7.83%	P 1,228,790	P 860,153
PhP - MYR	**14.63%**	**601,280**	**420,896**	20.88%	5,054,162	3,537,913
PhP - GBP	**28.71%**	**275,329,786**	**192,730,850**	18.63%	206,316,582	144,421,607
PhP - EUR	**17.40%**	**47,036**	**32,925**	23.15%	10,859,176	7,601,423
		P 276,908,226	**P 193,835,758**		P 223,458,710	P 156,421,096

Exposures to foreign exchange rates vary during the year depending on the volume of foreign currency transactions. Nonetheless, the analysis above is considered to be representative of the Group's currency risk.

(c) Other Price Risk

The Group's market price risk arises from its investments carried at fair value (financial assets classified as AFS financial assets). The Group manages exposure to price risk by monitoring the changes in the market price of the investments and at some extent, diversifying the investment portfolio in accordance with the limit set by management.

The sensitivity of equity with regard to the volatility of the Group's AFS financial assets assumes a +/-13.99 and a +/-16.19% volatility in the market value of the investment for the nine months ended January 31, 2017 and for the year ended April 2016, respectively. The expected change was based on the annual rate of return computed using the monthly closing market value of the investment in 2016. Based on the observed volatility rate, the estimated impact to other comprehensive income amounted to P119,949,507 and P142,646,856 for the nine months ended January 31, 2017 and fiscal year ended April 30, 2016.

3.2 Credit Risk

Credit risk is the risk that a counterparty may fail to discharge an obligation to the Group. The Group is exposed to this risk for various financial instruments arising from granting loans and selling goods and services to customers; granting advances to associates; and, placing deposits with banks, lessors and utility companies.

The Group continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. The Group's policy is to deal only with creditworthy counterparties. In addition, for a significant proportion of sales, advance payments are received to mitigate credit risk.

Generally, the maximum credit risk exposure of financial assets is the carrying amount of the financial assets as shown in the consolidated statements of financial position or in the detailed analysis provided in the notes to the consolidated financial statements, as summarized below.

	Notes	**January 31, 2017**	April 30, 2016
Cash and cash equivalents	5	**P 399,915,267**	P 1,034,432,119
Trade and other receivables – net	6	**3,352,152,640**	2,964,012,762
Advances to associates	11	**176,386,627**	170,306,627
Other non-current assets	13	**4,705,170**	4,352,318
		P 3,933,159,704	P 4,173,103,826

None of the Group's financial assets are secured by collateral or other credit enhancements, except for cash and cash equivalents as described below.

(a) Cash and Cash Equivalents

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable banks with high quality external credit ratings. Included in the cash and cash equivalents are cash in banks and short-term placements, which are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P500,000 for every depositor per banking institution.

(b) Trade and Other Receivables – net and Advances to Associates

The Group's trade receivables as at January 31, 2017 and April 30, 2016 are due mainly from customers of H.R. Owen and from PCSO. The Group maintains policies that require appropriate credit checks to be completed on potential customers prior to delivery of goods and services. On-going credit checks are periodically performed on the Group's existing customers to ensure that the credit limits remain at appropriate levels.

The Group mitigates the concentration of its credit risk from its receivables from PCSO by regularly monitoring the age of its receivables from PCSO and ensuring that collections are received within the agreed credit period. These objectives, policies and strategies are consistently applied in the previous year up to the current year. In addition, the risk is reduced to the extent that PCSO has no history of significant defaults and none of the past due receivables are impaired as at the end of the reporting period.

In respect to trade receivables from the customers of H.R. Owen and other receivables and advances to associates, the Group is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The Group's receivables are actively monitored to avoid significant concentrations of credit risk.

(c) Other Non-current Assets

The refundable deposits of the Group under Other Non-Current Assets account in the consolidated statements of financial position pertain to security deposits made to various lessors and utility companies which the Group is not exposed to significant credit risk.

3.3 Liquidity Risk

The ability of the Group to finance increases in assets and meet obligations as they become due is extremely important to the Group's operations. The Group's policy is to maintain liquidity at all times. This policy aims to honor all cash requirements on an on-going basis to avoid raising funds above market rates or through forced sale of assets.

Liquidity risk is also managed by borrowing with a spread of maturity periods. The Group has significant fluctuations in short-term borrowings due to industry specific factors. The Group mitigates any potential liquidity risk through maintaining substantial unutilized banking and used vehicle stocking loan facilities.

As at January 31, 2017 and April 30, 2016, the Group's financial liabilities pertain to Trade and Other Payables, except those tax-related liabilities, and Loans Payable and Borrowings inclusive of future interest. Trade and other payables and loans payable and borrowings are considered to be current which are expected to be settled within 12 months from the end of each reporting period.

4. SEGMENT REPORTING

4.1 Business Segments

The Group is organized into different business units based on its products and services for purposes of management assessment of each unit. In identifying its operating segments, the management generally follows the Group's four service lines. The Group is engaged in the business of Leasing, Services, Holdings and Investments and Motor Vehicle Dealership. Presented below is the basis of the Group in reporting to its strategic steering committee for its strategic decision-making activities.

(b) The Services segment pertains to the hotel operations of PHPI.

(c) Holdings and Investments segment relates to gains (losses) on disposal of investments and share in net gains (losses) of associates.

(d) The Motor Vehicle Dealership segment pertains to the luxury motor vehicle retailers and provision of aftersales services of H.R. Owen.

4.2 Segment Assets and Liabilities

Segment assets are allocated based on their physical location and use or direct association with a specific segment. Segment assets include all operating assets used by a segment and consist principally of operating cash, receivables, advances, inventories and property, plant and equipment, net of allowances and provisions. Similar to segment assets, segment liabilities are also allocated based on their use or direct association with a specific segment. Segment liabilities include all operating liabilities and consist principally of accounts, taxes currently payable and accrued liabilities. 4.3 Intersegment Transactions

15.1 Vehicle Stocking Loans

Manufacturers' vehicle stocking loans and other loans are all at variable, floating commercial rates of interest. These are secured at any time by fixed and floating charges on stocks of new and demonstrator cars and commercial vehicles held. Other third party vehicle stocking loans are secured by fixed and floating charges on stocks of used cars.

15.2 Bank Loans

In 2016, the Parent Company obtained a secured loan from a local bank for its working capital requirements. Such loan bears a fixed annual interest based on prevailing market rate and is secured by surety from PGMC and real estate mortgage over parcels of land, including the improvements therein, owned by PLPI.

H.R. Owen's loans are secured by fixed and floating charges over the assets (i.e., vehicles) of H.R. Owen and are repayable on demand. H.R. Owen has entered into an agreement with Barclays Bank Plc whereby its credit balance with the bank can, at any time, be used to discharge sums due to the bank by any Group undertaking.

In June 2016, H.R. Owen obtained a secured loan with Maybank to facilitate its working capital requirements.

In Dec 2017, the Parent company obtained a secured loan from a local bank for additional investment.

16. DIVIDENDS

On October 5, 2015, the Parent Company's BOD approved the following resolutions:

(i) increase in authorized capital stock from P2,000,000,000 divided into 2,000,000,000 shares to P6,000,000,000 divided into 6,000,000,000 shares;

(ii) reversal of P4,000,000,000 previously allocated funds for capital expenditures and corporate expansion back to unrestricted retained earnings; and,

(iii) declaration of stock dividends at a rate of 4 common shares for every common share held to be taken from the increase in authorized capital stock.

Consequently, the Company appropriated P3,473,024,684 retained earnings for distribution of stock dividends.

On May 27, 2016, the Parent Company filed the declaration of stock dividends and the increase in authorized capital stock for approval of the SEC. Subsequently, the SEC approved the increase in authorized capital stock on May 31, 2016. Further, on June 6, 2016 the SEC approved the declaration of stock dividends setting the date of record on June 24, 2016 and the date of payment on July 20, 2016. Consequently on July 20, 2016, the Parent Company issued stock dividends of 3,473,024,684 shares at par.

17. EARNINGS PER SHARE

In fiscal year 2016, the Parent Company declared stock dividends at a rate of 4 shares for every one share held (see Note 16). Consequently, the EPS has been adjusted retrospectively to account for the increase in the number of issued and outstanding shares. For purposes of calculating EPS, the weighted average number of outstanding common shares in nine months ended January 31, 2017 and for the years ended April 30, 2016 increased from 868,256,171 shares to 4,341,280,855 shares. The calculation of EPS is presented as follows.

Currently, financial assets and liabilities are settled on a gross basis; however, each party to the financial instrument (particularly related parties) will have the option to settle all such amounts on a net basis through approval by both parties' BOD and stockholders or upon instruction by the Parent Company.

17. FAIR VALUE MEASUREMENT AND DISCLOSURES

17.1 Fair Value Hierarchy

In accordance with PFRS 13, the fair value of financial assets and liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS, are categorized into three levels based on the significance of inputs used to measure the fair value. The fair value hierarchy has the following levels:

(a) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;

(b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,

(c) Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

For investments which do not have quoted market price, the fair value is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market of another instrument which is substantially the same after taking into account the related credit risk of counterparties, or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

When the Parent Company uses valuation technique, it maximizes the use of observable market data where it is available and relies as little as possible on entity specific estimates. If all significant inputs required to determine the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, it is included in Level 3.

17.2 Financial Instruments Measured at Fair Value

Quoted equity securities, debt securities and others classified as AFS financial assets are included in Level 1 as their prices are derived from quoted prices in active market that the entity can access at the measurement date, except for certain equity securities with carrying amount of P135,411,534 which are carried at cost as at April 30, 2015 (provided with full allowance in 2016).

The fair value of these shares decreased by P215,219,378 and P333,222,362 in nine months ended January 31, 2017 and 2016, respectively. This was presented as Net Unrealized Fair Value Gains on Available-for-sale Financial Assets under Other Comprehensive Income (Loss) of the consolidated statements of comprehensive income.

The Group has no financial liabilities measured at fair value for the nine months ended January 31, 2017 and for the years ended April 30, 2016. There were no transfers across the levels of the fair value hierarchy in both years.

17.3 Financial Instruments Measured at Amortized Cost for which Fair Value is Disclosed

The table below shows the fair value hierarchy of the Group's classes of financial assets and financial liabilities measured at fair value in the consolidated statement of financial position on a recurring basis on nine months ended January 31, 2017 and for the year ended April 30, 2016:
